To prevent it, the State Government have taken various preventive/confidence building measures which *inter-alia* include:

— Strengthening the Village Defence Committee system by providing them Training and improved weaponary and communication equipment;

— Strengthening the security grid around the minority inhabited villages;

— Increased frequency of patrolling by security forces of sensitive and vulnerable areas;

— Visits by State Government and security force officers to remote and minority villages.

After the incidents of Mehjoor Nagar, the State Government had further reviewed the security arrangements for minorities and remote and scattered population. In addition there is a constant monitoring of the security situation by the respective Unified Headquarters level at Jammu & Srinagar as well as in Operations groups at various lower levels with a view to dynamic deployment and adoption of strategies by the security forces to meet the various challenges being thrown up by the terrorists.
